**Precepts - Please comment on the quality of the precepts. How did they contribute to your learning in the course? To what extent did the preceptor raise challenging questions, help clarify course material, and encourage broad student participation? Was the preceptor responsive to students' questions, opinions, and criticism?**

Comments
Federico is an amazing preceptor. He is incredibly helpful and goes above and beyond to help students.
The precepts were great and a way to learn the material in a hands-on way while collaborating with others. My preceptor was always super helpful both in precept and during office hours. It was also clear that he loved the material and was excited to pass on his knowledge to us.

Comments
Precepts felt somewhat unnecessary, was never really engaged. Felt like I learned everything from lectures, textbook, and handouts on website
Precept was always a really helpful time to ask questions. I felt comfortable asking for help. Federico is the best! It was also a good mix of clarifying conceptual questions at the beginning and then practicing coding for the rest of the class. Federico really adjusted the class to our needs.
Federico is so kind and helpful. I loved having him as my preceptor and would not have survived without him!!!
Great preceptor, actually really helped a lot, was very helpful and made a great class environment
Federico is a great TA – he teaches the material very well and manages the 50 minutes very effectively, focusing on key concepts and making sure everyone has their questions answered and are ready for the assessments.
Federico is one of the best preceptors I've ever had. He was patient with questions but never allowed a precept to pass without us understanding the takeaways, and he would often follow up with a handout on what we didn't get to.
